THE ZONAR ADVANTAGE

As a pioneer, partner and platform provider, Zonar delivers fleets extraordinary capabilities and savings in three important ways.

Effective and Innovative Products

At Zonar we call it customer-driven ingenuity, because our products emerge from an effective partnership with our customers. Groundbreaking products that deliver fleets their next big savings are the result. That is Zonar's payback.

Affordable by Design

Zonar is the manufacturer of its equipment and the developer of its software. That means no middlemen and markups between you and Zonar's solutions. These savings are passed to you. That's why it pays to have Zonar as your fleet management partner.

Driven by Customer Satisfaction

You'll work with a capable and motivated group of people. Zonar has earned exceptionally high customer loyalty by passing the toughest evaluations, exceeding expectations and demonstrating our staying power.

YOUR SUCCESS IS OUR SUCCESS

Fleet management solutions are essential to run a successful operation. We know your success depends on having the right fleet management partner. That's why we have set the bar high for ourselves at Zonar.

We Do More So Fleets Benefit

Zonar never rests in our pursuit to apply the appropriate technology to the challenges fleets face. We see more than most. This "seeds" the innovation we build into our products and lets us deliver savings that just can't be matched. We do more than most.

Anything Less Risks Your Success

Zonar's people are passionate about your success. You can count on us to deliver solutions that have proven their worth. With Zonar, fleet operators have the peace-of-mind that comes with choosing the right fleet management partner.

You Can Have it all with Zonar

Teamwork is what ensures the Zonar experience is better than any other. We combine industry, regulatory, technical and product deployment experience to serve fleets spanning commercial and private trucking, pupil transportation, municipal fleets, waste operations, utilities and construction. You will notice the difference partnering with the Zonar "team of owners" makes.

INSPECT. TRACK. KNOW.

Zonar built the first Electronic Vehicle Inspection Report (EVIR) system revolutionizing how pre- and post-trip inspections, mandated by state and federal law, are conducted by fleets. It started with a simple - Inspect Regularly, Track Instantly and Know Always— approach. Today, it has grown into a comprehensive high-return telematics platform providing a set of solutions that remain simple to use.

Unmatched Capabilities, Surprisingly Affordable

Zonar is known for effective and affordable products, provided with standout customer service.

EVIR®: Changes vehicle inspections from a pain to a gain.

V2J™: Turns vehicle tracking into a high return platform.

Ground Traffic Control™: Makes knowing easy.

ZPass™: Makes real-time ridership tracking a reality.

What is remarkable is that all these capabilities and the impressive benefits they deliver are surprisingly affordable. That's why Zonar has become an industry standard and best practice for fleets large and small.

EXCEEDING EXPECTATIONS IS WHAT WE DO

We have earned exceptionally high customer loyalty by exceeding expectations. That is because with Zonar, customer care is experienced end-to-end. It starts with a product team that is a thinking partner, a sales team that is a solutions partner and a customer care team that is a satisfaction partner.

Driven "To Do Right" By Our Customers - Is what has earned us our reputation.

The Process is Personal - That's because it is people, not process, that get things done.

Your Success is Our Passion - We are about making it easier to do your job.
