

MAPTUIT® NAVIGO™ OPTIMIZED BY QUALCOMM®

FOR THE MCP100

Launch Navigation

1. You must be logged in to the unit as an active driver before launching Navigation. Tap the Login icon to confirm your status and log in if needed.
2. Once you are logged in as the active driver, tap Navigation. This takes you to the Navigation Main Menu shown below

For your safety, some screens and functionality are not available when the vehicle is moving and only one driver is logged in.

Navigation Main Menu

WHERE TO? Get a map and route for an address you type

VIEW MAP Get a map (no route) for an address you type

FOLLOW ME See the vehicle's current location on map

RESUME Resume viewing the current route (for example, after the unit has been turned off and back on)

DISPATCH Get a map and route sent by your dispatcher (not available on all systems)

FEEDBACK LOCATIONS Send feedback about a location (for example, load restrictions, construction)

Get Directions by Typing Address

1. From the Main Menu: tap **WHERE TO?**
2. From the Location Search screen: Type the address in the **Find** text box.

Your company may also enable the following features:

- ** To find hazmat-approved route, append */h* to end of address.
- ** To find the nearest company-approved fuel stop, type *Fuel Ahead*.

3. Tap **SEARCH**
4. Tap the address you want in **CANDIDATE(S)** list.
5. Tap **GO**.

The Route Map (shown on reverse side) appears.

If the map database finds more than one address matching the one you typed, it lists them in the CANDIDATE(S) FOUND list. Tap the one you want to select it.

To see a map showing the locations of all listed addresses, tap VIEW MAP.

The exact appearance of screens may differ, depending on your system.

MAPTUIT® NAVIGO™ OPTIMIZED BY QUALCOMM®

FOR THE MCP100

Get Directions to Stops Sent by Dispatcher

If your company has implemented Active Dispatch, your dispatcher can send you a list of stops. You can get maps and directions without typing or cutting and pasting addresses. Not all companies have implemented the Active Dispatch feature.

1. From the Main Menu: tap DISPATCH

2. From the Active Dispatch screen: tap the button with the name of the stop to which you want directions.

You now see a Route Map similar to the one shown below.

To view a map (no route) of the area surrounding a stop, tap VIEW MAP to the right of the stop's name.

To view more stops, tap up or down arrow at the right of the screen.

Pickup

Delivery

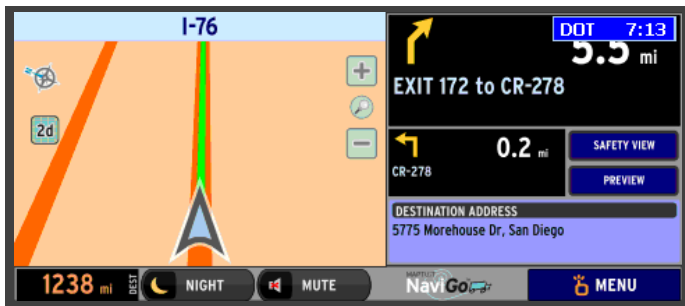

Other

Fueling Station

View Route Map

You can get back to this route map after navigating away from it, even after turning off the unit, then turning it back on:

From the Navigation Main Menu, tap RESUME.

Change zoom level

Upcoming turn

Toggle Night Mode

Toggle mute for voice instructions

Return to Main Menu for NaviGo

Toggle 2d/3d views

Toggle north-up vs. direction-of-travel up views

Turn after the upcoming turn

The exact appearance of screens may differ, depending on your system.

WARNING: This navigation system is only a trip-planning aid. The system is being provided AS-IS, without warranty of any kind. Your use of Navigation is subject to the Maptuit Terms of Use as contained in the Navigation User Guide which is available on Maptuit's website.

You are responsible for following all traffic rules to make sure you and your vehicle are safe at all times. Some of the map data may not reflect current road conditions. Disregard unsafe, illegal, or incorrect route directions. Failure to follow local driving rules and exercise good judgment may cause an accident which could lead to serious injury or death.

WARNING

Driver - Do not use while vehicle is in motion.

Use of display unit while driving will cause distraction and loss of vehicle control which may lead to serious injury or death.
